## LEGAL EAGLES

### Our 30 Best Lawyers

When all else fails, here are 30 top-flight lawyers who will kick butt and take names.

**T**he hee-haw next door just opened a Harley repair business in your residentially zoned neighborhood; your spouse left last night with the kids, the furniture, and the furniture salesperson; your boss just fired you for wearing a turban at staff meetings; and your stockbroker neglected to utter the words "ridiculously high risk" when he put your life savings in Ukranian potato futures.

You've been wronged, tortured, bilked, and bamboozled, and you need a lawyer now.

The good news is Baltimore has a lot of *really good* lawyers, including more than a few who are nationally recognized in their fields. Our mission every couple of years: Find them.
